GRADUATE STUDENT SEMINAR

Speaker: Zhen Wang

Title: *Hájek–Rényi inequality for the strong law of large numbers*

Date: April 25, 2007

Time: 10.30 am

Location: College West 307.20

Abstract: In this talk, we introduce variations of the Hájek–Rényi inequality and discuss the general method for obtaining the strong law of large numbers for sequences of random variables from this inequality.

Supervisors: M Kozdron & A Volodin

Coffee & cookies will be served in the Lounge prior to the lecture
